# Waiaex

# Xenos

# Onex

## Your GSSG Hosts

**Mike Singleton** has been with the GSSG from the start. Most of you know him well. Mike has flown more Sonex than anyone in Texas, and many of us got our first ride in a Sonex from him. He has built (from plans) N148MS, he test flew it 6/12/2005. Always willing to help with any Sonex related stuff, he has become a valuable Sonex information resource. Mike also serves as an EAA Flight Advisor and Technical Counselor.

**Robert Barber** got hooked in 2004 after visiting Mike and taking a ride in Larry Perryman's Sonex. Money started flowing when the Sonex turned crosswind. He has attended every GSSG since 2004. Also a plans builder, Robert first flew N157SX on 3/29/2009. Also eager to assist, Robert hopes to help with your Sonex project any way he can. Robert serves as a Technical Counselor for the EAA.

*The goal of every Sonex Builder!*

## Planned Events

### Coffee and Donuts

Coffee and donuts for early arrivals starting at 8:00 AM

### Lunch

Lunch will be available - Hopefully we can get the fajita guy there again this year. Expect around 12:00 or so.

### Door Prizes

Door prize drawings will be held after lunch, expected around 1:00 PM

### Sonex Flight Discussion

A general discussion on Sonex flight characteristics will be given. Time to be determined during the day, but will most likely be just after lunch.

### Construction Seminar

Margaret Hastedt's Sonex kit is available for viewing, but Margaret will not be available. Her kit is under construction, and this is an opportunity to see and discuss construction issues.

### Sonex Rides

Sonex Rides as weather and pilot fatigue permits.

### Non Sonex attractions

Hard to believe, but some of our spouses would rather do something else! Local attractions include Messina Hoff Winery just off the end of RWY 15. Historic downtown Bryan is about 3.5 miles away, and the Bush Presidential Library about 6 miles away.

## The Gathering...

This year the 13th Annual Great Southern Sonex Gathering will be held on November 1st at Coulter Field in Bryan, Texas. Time will be 8:00 to 4:00 (or later).

Yes, 13 years! We want to make this a special fly-in, so expect to see some cool stuff this year!

This event has been growing each year and is a great opportunity to see and touch the aircraft (with owner's permission of course), talk with the builders and pilots, sit in the planes to see how you fit, and have a good time visiting with some wonderful people. Begun 13 years ago by Mike Singleton, Ray Coker, and Larry Perryman, the Great Southern Sonex Gathering has grown every year and recruited many Sonex builders/fliers.

So, if you are at all interested in Sonex aircraft (Sonex, Waiaex, Onex or Xenos), or just want somewhere to go Saturday, November 7<sup>th</sup>, come by and have some Sonex Fun!

Please let us know if you are planning to come, and how many will be coming with you. We need as accurate a head count as possible to make the event run as smoothly as possible.
